Admiral's Cove – Haverstraw, NY New Construction

1,088 Windows and Doors

Project Highlights

Situated directly on the Hudson River in Rockland County, NY, the residents of the new Admirals Cove housing development benefit from the great views and energy efficiency afforded by Crystal Window & Door products. Crystal supplied almost 1,100 double-hung windows, fixed/picture windows, and sliding glass doors. The five- and six-story buildings that make up the Admirals Cove development at 1100 Admirals Cove Boulevard in Haverstraw, NY, are located on a peninsula on the west bank of the Hudson River.

Admirals Cove is comprised of 4 buildings with waterfront-inspired architecture and 245 studio, one-, two-, and three-bedroom apartments. Premium units have balconies with river views. The buildings each have their own lobby, fitness center, lounges, and ground floor garages. Common amenities include an outdoor pool, sundeck, firepits, grills, playground, kayak launch, Zen garden, and waterfront promenade. The complex is adjacent to a commuter ferry to Ossining, NY across the Hudson River, where the Metro North Railroad station there provides service to Grand Central Station in New York City.

Project Partners

Developer and Builder: Ginsburg Development Companies, Valhalla, NY

Architect: Appel Design Group, Livingston, NJ
